

MONETISATION AUDIT

TYLER SALE · T77BMX

@t77bmx · 116,847 followers (public data)

The UK BMX workshop people watch: repairs, restorations and custom builds, filmed from the bench to the skatepark.

REVENUE RANGE · ESTIMATE

\$1,000 to \$180,000

Estimate. The top of the range is a full year of one-to-one coaching at 20 hours a week (six 8-week blocks).

\$12,109

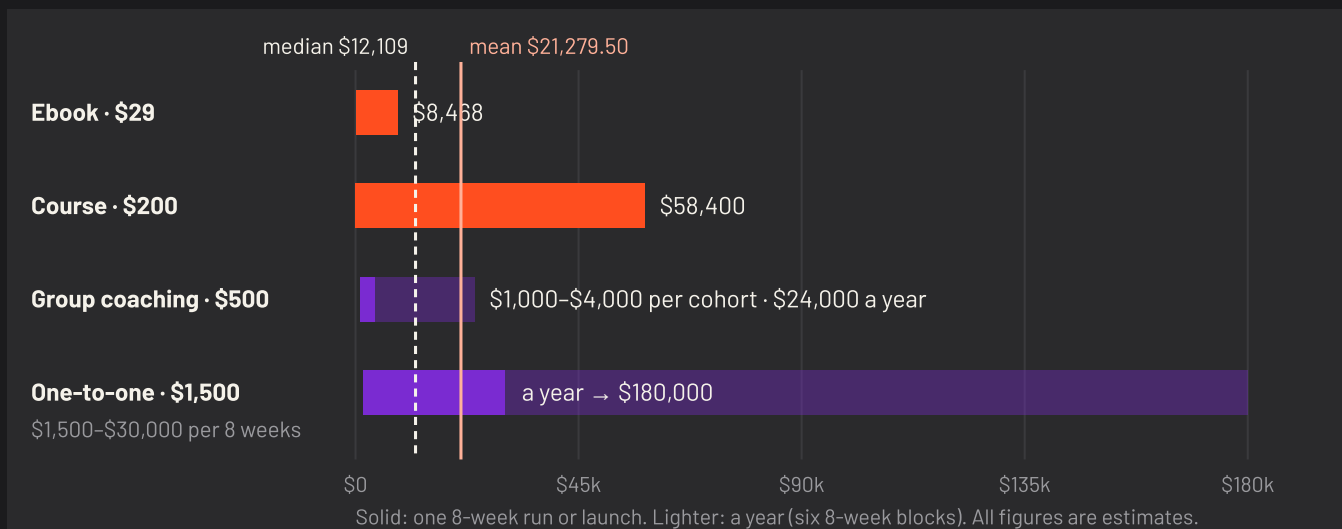

MEDIAN · ESTIMATE

\$21,279.50

MEAN · ESTIMATE

\$90,500

MID-RANGE · ESTIMATE

Assumptions: 5% of followers are engaged and 5% of those buy (292 buyers); group coaching is 2 to 8 people per 8-week cohort; one-to-one is 1 to 20 hours a week; the maximum is a full year of six 8-week blocks.

You shoot the footage and run the sessions. Autora hosts and runs everything else, with nothing to pay upfront.

286,025

VIEWS, BEST RECENT REEL

Public profile data, as scraped for this audit.

THE CONTENT THAT WORKS

RECENT REEL	VIEWS	LIKES
Custom Profile Racing rear wheel rebuild, Amsterdam	286,025	8,585
Customising the rare Grape Soda BMX at the skatepark	190,431	2,808
Sunday Bikes "Burn Slow" stem upgrade, inside the skatepark	70,002	1,059
"The most satisfying BMX headset repair"	38,281	1,555

The pattern is clear in your own numbers: a real part, a real problem, and a finished bike at the end. When the repair leaves the workshop and happens somewhere people recognise, the views jump. The sponsored post in the same fortnight drew 1,595 views; the work itself is what people come for.

THREE CONTENT PILLARS

Custom builds on location

Amsterdam, the skatepark, the "secret location". The workshop taken out into the world.

Workshop repairs and restorations

Headsets, wheels, full rebuilds. Paid jobs you already take on through the workshop.

Tools and technique

The Allen key set, the grips hack with GT85. Small fixes riders can do at home.

SECTION 02

WHERE THE NUMBER COMES FROM

Every figure in this audit comes from one chain of arithmetic, starting from your public follower count. All figures are estimates in US dollars, with the assumption shown next to each step.

F = 116,847 followers

Your public follower count (public data).

E = 5% * 116,847 = 5,842 engaged

Assumption: 5% of followers are actively engaged. 5,842.35, rounded down to whole people.

B = 5% * 5,842 = 292 buyers

Assumption: 5% of engaged followers buy. 292.1, rounded down. That is 0.25% of your followers.

THE FOUR PRODUCTS

PRODUCT	PRICE	RESTS ON	REVENUE (ESTIMATE)
Ebook	\$29	292 buyers	\$8,468
Online course	\$200	292 buyers	\$58,400
Group coaching (8 weeks)	\$500	2 to 8 people per cohort	\$1,000 to \$4,000 \$24,000 a year
One-to-one coaching (8 weeks)	\$1,500	1 to 20 hours a week	\$1,500 to \$30,000 \$180,000 a year

Ebook: $292 \times \$29 = \$8,468$. Course: $292 \times \$200 = \$58,400$. The coaching ranges are worked out on the next page.

SECTION 02 · CONTINUED

WHERE THE NUMBER COMES FROM, CONTINUED

GROUP COACHING

 $2 \text{ to } 8 * \$500 = \$1,000 \text{ to } \$4,000$

Per 8-week cohort of 2 to 8 people.

 $48 * \$500 = \$24,000 \text{ a year}$ Six 8-week cohorts a year $\times$ 8 places = 48 places.

With 292 buyers, there are enough to fill all 48.

ONE-TO-ONE COACHING

 $1 \text{ to } 20 * \$1,500 = \$1,500 \text{ to } \$30,000$

Per 8 weeks, at 1 to 20 hours a week (one hour per client).

 $120 * \$1,500 = \$180,000 \text{ a year}$ Six 8-week blocks $\times$ 20 clients = 120 programmes.

With 292 buyers, there are enough to fill all 120.

THE RANGE AND THE AVERAGES

FIGURE	WORKING	ESTIMATE
Minimum	Lowest figure across the four products: one group cohort of 2	\$1,000
Maximum	A full year of one-to-one at 20 hours a week (bigger than the course and the group year)	\$180,000
Median	Figures in order: \$2,500, \$8,468, \$15,750, \$58,400. Middle two: $(\$8,468 + \$15,750) \div 2$	\$12,109
Mean	$(\$2,500 + \$8,468 + \$15,750 + \$58,400) \div 4 = \$85,118 \div 4$	\$21,279.50
Mid-range	$(\$1,000 + \$180,000) \div 2$	\$90,500

For the median and mean, each coaching product is counted at the middle of its 8-week range: group coaching $(\$1,000 + \$4,000) \div 2 = \$2,500$, one-to-one $(\$1,500 + \$30,000) \div 2 = \$15,750$. The mid-range uses the year maximum. These are estimates built on the stated assumptions, not a forecast or a promise.

SECTION 03

THE PRODUCT LADDER

Your videos already show the method for free, and paid help only reaches bikes that physically get to the workshop. Each step below is for riders who want to do the job themselves, on their own bike. It sits next to the workshop rather than competing with it.

1 · THE T77 REPAIR MANUAL (EBOOK)

\$29

What it is: your repair and restoration method in writing: diagnosis, what to replace and why, the tools, and the order of work. Autora writes it from your own videos and captions; you only confirm you're happy for it to go out.

For: riders who watch the reels and want the steps to hand at the bench. **Estimate:** $292 \times \$29 = \$8,468$.

2 · WORKSHOP-AT-HOME (ONLINE COURSE)

\$200

What it is: one full restoration from stripped frame to finished bike, filmed the way you already film, with each step broken out. The restoration series from your audit, sequenced and finished properly.

For: riders who want to do the whole job themselves but can't bring their bike to you. **Estimate:** $292 \times \$200 = \$58,400$.

3 · THE BUILD CREW (8-WEEK GROUP COACHING)

\$500

What it is: 2 to 8 riders each working on their own bike over 8 weeks, with a weekly live session where you look at their progress and answer what they're stuck on.

For: riders who want to rebuild alongside others, with you checking the work. **Estimate:** \$1,000 to \$4,000 per cohort; \$24,000 a year.

4 · ONE-TO-ONE BUILD (8-WEEK COACHING)

\$1,500

What it is: an hour a week with you, one rider and one bike, from diagnosis to a finished restoration or custom build.

For: riders with a bike that matters to them and nobody nearby to help. **Estimate:** \$1,500 to \$30,000 per 8 weeks; \$180,000 a year.

SECTION 03 · CONTINUED

THE LADDER SIDE BY SIDE

PRODUCT	PRICE	YOUR TIME	ESTIMATE
T77 Repair Manual	\$29	Read and approve	\$8,468
Workshop-at-Home course	\$200	Film one restoration	\$58,400
The Build Crew	\$500	One live session a week	\$1,000-\$4,000 / cohort \$24,000 a year
One-to-One Build	\$1,500	1 hour a week per client	\$1,500-\$30,000 / 8 wks \$180,000 a year

All revenue figures are estimates built on 292 buyers (0.25% of followers) and the coaching assumptions on pages 3 and 4.

ALONGSIDE THE FOUR

THE TOOL LIST INSIDE THE COURSE

Each lesson lists the exact tools used, linked through the affiliate partnerships you already have. It turns those relationships into part of the product rather than a separate link in bio. No revenue figure is put on this.

THE WORKSHOP STAYS AS IT IS

Your paid repairs, restorations and custom builds carry on exactly as now, for bikes that can reach you. The ladder is for the riders who can't. No revenue figure is put on the workshop in this audit.

YOUR RULE STILL APPLIES

You pick each job by "what the bike actually needs, what will make the biggest difference to the rider, and what will make an interesting transformation to film", and keep it "genuine rather than forcing a repair purely for content". The course restoration should be chosen the same way.

SECTION 04

WHO DOES WHAT

Autora hosts and runs everything: the format, the build, the platform and hosting, the checkout and payments, delivery, the marketing and the backend. There is nothing to pay upfront. Autora is paid from a share of what the products make.

YOUR PART

EBOOK

Confirm you're happy for it to go out. Next to no work.

ONLINE COURSE

Film one full restoration, the way you already film, and send Autora the footage.

GROUP COACHING

Run the weekly live session for each 8-week cohort.

ONE-TO-ONE

Run one hour a week with each client.

WHAT AUTORA DOES

EBOOK

Writes it from your videos and captions, designs it, hosts it, sells it and delivers it.

ONLINE COURSE

Edits the footage into lessons, adds the tool lists, hosts it, sells it and delivers it.

GROUP COACHING

Sales page, booking, payments, onboarding and marketing for every cohort.

ONE-TO-ONE

Sales page, booking, payments, onboarding and marketing for every client.

You never have to build a website, set up a checkout, host a video or write a sales post. Your time goes on the thing people already follow you for: working on bikes.

The workshop, the shop and your existing partnerships carry on as they are.

SECTION 05

OFFER DETAIL

T77 REPAIR MANUAL

\$29

- **Inside:** how to diagnose a tired BMX, what to replace and why, the tool for each job, and the order of work for headsets, wheels, stems and grips, drawn from the repairs you've already filmed.
- **The promise:** the steps from your reels, in one place, at the bench.
- **Your part:** Autora writes it; you only confirm you're happy for it to go out.
- **First step:** Autora drafts it from your existing videos and sends it to you to check.

WORKSHOP-AT-HOME COURSE

\$200

- **Inside:** one full restoration from stripped frame to finished bike, broken into lessons: diagnosis, what to replace and why, tools, order of work. Each lesson carries its tool list.
- **The promise:** riders do the whole job themselves, on their own bike, step by step.
- **Your part:** film the restoration and send Autora the footage. Autora turns it into the course, hosts it, sells it and delivers it.
- **First step:** pick one restoration you're already planning to film, and film it with the series in mind.

SECTION 05 · CONTINUED

OFFER DETAIL, CONTINUED

THE BUILD CREW

\$500

- **Inside:** 8 weeks, 2 to 8 riders, each on their own bike, with one live session a week to review progress and solve what's stuck.
- **The promise:** a finished bike in 8 weeks, with you checking the work.
- **Your part:** run the weekly sessions. Autora handles the sales page, booking, payments, onboarding and marketing.
- **First step:** open the first cohort to the waitlist from the course launch.

Estimate: \$1,000 to \$4,000 per cohort; up to six cohorts a year, 48 places, $48 \times \$500 = \$24,000$.

ONE-TO-ONE BUILD

\$1,500

- **Inside:** an hour a week for 8 weeks, one rider and one bike, from diagnosis to a finished restoration or custom build.
- **The promise:** the rider's own bike done properly, with them doing the work and you guiding every step.
- **Your part:** run the weekly hour. Autora handles the sales page, booking, payments, onboarding and marketing.
- **First step:** decide how many hours a week you want to give it, from 1 up to 20.

Estimate: \$1,500 to \$30,000 per 8 weeks; six blocks at 20 hours a week, $120 \times \$1,500 = \$180,000$ a year.

SECTION 06

LAUNCH PLAN

Nothing gets built until riders have told you they want it. Four steps, in this order.

01 ASK FIRST

Run a story poll or question box: would riders rather send their bike in, or learn to do the job themselves? Then post the test on the next page. This tests demand before anything is built.

02 FILM ONE RESTORATION WITH THE SERIES IN MIND

Pick a restoration you're already planning to film, chosen by your usual rule: what the bike needs and what makes the biggest difference to the rider. Film each stage fully, then send Autora the footage.

03 WAITLIST, THEN A REAL LAUNCH

Invite interested riders to a waitlist and open the course to them first, with a clear launch date and a real close. Autora builds the waitlist, the sales page and the checkout.

04 LET THE NUMBERS DECIDE

Use the replies and waitlist numbers to decide whether a second series is worth making, and when to open the first Build Crew cohort and one-to-one places.

The open question this tests: how many of the people watching your repairs can't use the workshop because of distance or your capacity. You haven't said, so this audit treats it as the thing to find out, not a fact.

SECTION 07

THE FIRST POST

Post this as a carousel, or as the caption on your next workshop reel, before building anything.

1

Can't get your BMX to a workshop?

2

Every week I strip, fix and rebuild bikes like this one. Most of you watch from too far away to send yours in.

3

I'm thinking of filming one full restoration, every step, so you can do it on your own bike.

4

Comment "BUILD" if you'd want it.

SUGGESTED CAPTION

Thinking about something new for the workshop. Watch along as I take one rare bike from stripped frame to finished build, and this time film every single step so you can do the same on yours. Comment BUILD if you'd want it, and DM me if you ever need help with your BMX.

The number of "BUILD" comments is the demand test. Compare it with the 13 comments an average post draws (public data).

WHAT TO DO NEXT

YOUR NEXT MOVE, TYLER

1. Run the story poll and the "BUILD" post this week.
2. Choose the restoration you'll film for the course.
3. Tell us how many hours a week you'd give to one-to-one, if any.

Reply to this DM and I'll walk you through the numbers and what to build first.

Prepared by Euan Grant · Autora AI Automation · October 2026

All figures are estimates based on your public profile data and this audit, using the stated assumptions. They are not a forecast or a guarantee.

How this was made: I build automations, and used AI for the analysis, which is why this took an evening rather than a fortnight.
