MID-RANGE (ESTIMATE)

The bottom of the range is the ebook sales; the top is a full year of one-to-one coaching, capped at your 14 estimated buyers. Assumptions: 5% of followers are engaged and 5% of those buy; group coaching is 2 to 8 people per 8-week cohort; one-to-one is 1 to 20 hours a week; the maximum is a full year of six 8-week blocks. Median and mean count each coaching product at the middle of its 8-week range.

You film the lessons and run the sessions. We host and run everything else, with nothing to pay upfront.

Likes are hidden on most of your recent posts, so comments are the clearer signal. Several posts drew 36 to 73 comments, well above your usual level. That is engagement, not sales, and this audit treats it that way. The comments gather where you name a moment parents recognise:

RECENT POST (PUBLIC DATA)	COMMENTS	VIEWS

How financial stress reaches children	51	673
Your child's safety starts with what you teach them today	43	339

Three content pillars

**THE FEELING BEHIND
THE BEHAVIOUR**

"Not every reaction is defiance." Freezing, running, anger, silence: you translate what a child cannot put into words.

THE WORDS THAT STAY

A throwaway comment about food, money worries at home, comparing siblings: what parents say and how long it lasts.

**SAFETY AND SPEAKING
UP**

Teaching children to recognise unsafe situations, set boundaries and ask for help.

Behind all three sits your credibility: ICC and BCI verified, with ADHD and Autism & Neurodiversity specialist certifications announced on your page.

THE OPPORTUNITY

Your method is the *practice*, not the script

You turn parents who fall back on rushing and shouting into parents who can pause and respond the way they planned, in the moments that matter.

In your own words:

"The goal isn't to remember the phrase perfectly, but to practice it beforehand so it becomes more natural when things get difficult."

"We work on specific situations, identify the automatic reaction, and practise alternative responses until they feel more natural."

OBSERVED

- About 5,600 followers on Instagram, and on TikTok as @parentingwithmanal.
- A certified parent coach who already sells workshops and consultations, online and in person.
- Several posts drew 36 to 73 comments (public data: engagement, not sales).

INFERRED, NOT YET CONFIRMED

- Parents who comment get the script but not the practice, and you say the practice is what makes it work.
- You haven't said whether there are more parents than you have time for, so this audit doesn't assume it.

VERDICT

Products that let parents rehearse on their own, in a group or one to one package exactly what you already do with clients. Nothing here asks you to change your method; it gives parents more ways in.

The four products

PRODUCT	PRICE	WHAT THE FIGURE RESTS ON	REVENUE (ESTIMATE)
Ebook	\$29	14 buyers	\$406
Online course	\$200	14 buyers	\$2,800
Group coaching, 8 weeks	\$500	2 to 8 people per cohort; a year capped at 14 buyers	\$1,000–\$4,000 per cohort \$7,000 a year
One-to-one, 8 weeks	\$1,500	1 to 14 hours a week (capped at 14 buyers); a year capped at 14 buyers	\$1,500–\$21,000 per 8 weeks \$21,000 a year

Ebook: 14 x \$29 = \$406. Course: 14 x \$200 = \$2,800. The model allows up to 20 one-to-one clients at a time, but with 14 estimated buyers the top of the 8-week range uses 14.

THE WORKING, CONTINUED

Coaching ranges and *averages*

GROUP COACHING

Per 8-week cohort: 2 to 8 people x \$500 = \$1,000 to \$4,000.

A year holds six cohorts, up to 48 places (8 x 6).

With 14 buyers, the group programme could make you $14 \times \$500 =$ **\$7,000 a year**.

ONE-TO-ONE COACHING

Per 8 weeks: 1 to 14 clients (one hour a week each) x \$1,500 = \$1,500 to \$21,000.

A year holds six blocks, up to 120 programmes at 20 hours a week. With 14 buyers, one-to-one could make you $14 \times \$1,500 =$ **\$21,000 a year**.

Minimum

\$406

The ebook sales: $14 \times \$29$

Maximum

\$21,000

One-to-one year: $14 \times \$1,500$ (bigger than group \$7,000 and course \$2,800)

Median

\$2,650

Figures in order: \$406, \$2,500, \$2,800, \$11,250. Middle two: $(\$2,500 + \$2,800) / 2$

Mean

\$4,239

 $(\$406 + \$2,800 + \$2,500 + \$11,250) / 4 = \$16,956 / 4$

Mid-range

\$10,703

 $(\$406 + \$21,000) / 2 = \$21,406 / 2$

Median and mean count each coaching product at the middle of its 8-week range: group $(\$1,000 + \$4,000) / 2 = \$2,500$; one-to-one $(\$1,500 + \$21,000) / 2 = \$11,250$, the middle of the range capped at 14 buyers. The mid-range uses the year maximum. With 14 buyers, one-to-one's year equals one full 8-week block, so its bar has no lighter "a year" part.

LAUNCH PLAN

Ask first, then *build*

Three steps, in order. Nothing gets built until your audience has told you which moment they want to practise.

1 Ask first

Post the test carousel on the next page, then a story poll: which moment do you most want to practise: mornings, screens or bedtime?

Read the comments with the word "PRACTISE" and the poll results together.

2 Film the course around the top answers

One lesson per situation, starting with the moment that wins the poll. You film and send the footage; Autora builds the course and drafts the ebook from your posts for you to confirm.

3 Waitlist, then launch with a real close

Open a waitlist for parents who commented and voted. Then launch with a clear date and a real close, so parents know exactly when the doors open and when they shut.

WHAT TO KEEP IN MIND

- Comments show interest, not sales. Treat the poll and the waitlist as the real test.
- Keep the language practical, as you do now. No clinical claims.
- Your safety, emotions and family stress posts already draw comments; they are natural places to mention the waitlist.

YOUR FIRST POST

Test the demand *before* you build

A four-slide carousel in your voice. It tests one thing: whether parents want to practise, not just read the script.

- 1 You know the script. In the moment, it disappears.
- 2 That's normal: under stress we fall back on automatic reactions.
- 3 I'm thinking of a short course where we practise the moments that matter, until the new response comes naturally.
- 4 Comment "PRACTISE" if you'd want it.

CAPTION

The goal isn't to remember the phrase perfectly. It's to practise it beforehand, so it comes more naturally when things get difficult. That's what I do with parents: we take a specific situation, spot the automatic reaction, and practise another response until it feels natural. Would you want to practise this way too? Comment "PRACTISE" below.

DON'T

- Make clinical claims.
- Treat comment counts as sales.
- Say you are fully booked.

NEXT STEPS

What to do *next*

- 1 Post the test carousel and the story poll**
Mornings, screens or bedtime: let parents choose what to practise first.
- 2 Read the results with us**
We'll look at the comments and the poll together and decide what to build first.
- 3 Film, confirm, launch**
You film the lessons and confirm the ebook. We host and run everything else, with nothing to pay upfront.

Reply to this DM and I'll walk you through the numbers and what to build first.

Prepared by Euan Grant · Autora AI Automation · October 2026

All figures are estimates based on public data and this audit, not forecasts or guarantees. They assume 5% of followers are engaged and 5% of those buy, in US dollars.

How this was made: I build automations, and I used AI for the analysis, which is why this took an evening rather than a fortnight.
