ESTIMATED YEARLY REVENUE RANGE, IN US DOLLARS

\$2,523 to \$130,500

Estimate · the bottom is the ebook sales; the top is a year of one-to-one coaching for all 87 buyers

Median (estimate)

\$9,136.50

Mean (estimate)

\$9,543.25

Mid-range (estimate)

\$66,511.50

Assumptions: 5% of followers are engaged and 5% of those buy (87 buyers); group coaching is 2 to 8 people per 8-week cohort; one-to-one is 1 to 20 hours a week; the maximum is a full year of six 8-week blocks. Median and mean count coaching at the middle of its 8-week range.

Who does what: you shoot the lessons and run the sessions. We host and run everything else, and there is nothing to pay upfront.

SECTION 1

What your numbers say

34,832

followers

115

10average
comments**0.36%**

engagement rate

All four figures are public profile data. You are verified, you have published 997 posts, and your bio already names the person you serve: English speakers ready to stop being beginners, at A1–A2 and A2–B1.

The content that works

Across your 12 most recent posts, the clear winners are the carousels that hand people Spanish they can use straight away. **“7 phrases to sound like a native”** is your strongest recent post at 459 likes, and part 3 of the same series drew 170. Your cognates carousel (–ly → –mente, –ism → –ismo) reached 195 likes. Your Learn Spanish in context videos sit lower, around 32–38 likes on 258–415 views.

Comments tell a different story. The post where you finally told your own story drew 49 comments, the most of any recent post, and your italki lesson offer drew 32. When you are personal or invite people to speak with you, they answer.

One line runs through almost every caption: **“knowing the rule is one thing; using it when you speak is another.”** That is the gap your audience is paying to close, and every product in this audit is built around it.

Three content pillars

PILLAR 1

Sound like a native

Natural phrases, cognates and regional expressions, like your Colombia vs Venezuela comparisons.

PILLAR 2

From rule to speech

Grammar in use: the imperfect, ser vs estar, por vs para, saber + infinitive, and the A1–A2 mistakes.

PILLAR 3

Spanish in context

Vlogs from everyday life, like your coffee vlog and Conductor o copiloto, unpacked line by line.

SECTION 2

Where the number comes from

Every figure in this audit is an estimate built from one public number, your follower count, and one fixed model. Here it is step by step, so you can check each line.

F · followers (public data)	34,832
E · engaged audience, 5% of F: $34,832 \times 0.05 = 1,741.6$, rounded down	1,741
B · buyers, 5% of E: $1,741 \times 0.05 = 87.05$, rounded down	87

The four products

PRODUCT	PRICE	WHAT THE FIGURE RESTS ON	REVENUE (ESTIMATE)
Ebook	\$29	87 buyers $\times$ \$29	\$2,523
Online course	\$200	87 buyers $\times$ \$200	\$17,400
Group coaching (8 weeks)	\$500	2 to 8 people per cohort; up to 48 places a year (8×6)	\$1,000–\$4,000 per cohort \$24,000 a year
One-to-one coaching (8 weeks)	\$1,500	1 to 20 hours a week; a year holds 120 places, capped at 87 buyers	\$1,500–\$30,000 per 8 weeks \$130,500 a year

All figures are in US dollars. The 5% and 5% shares, the prices and the cohort sizes are the fixed Autora model, applied the same way to every creator; they are assumptions, not a forecast of your sales.

The coaching ranges and the averages

Group coaching

Per cohort, low: $2 \times \$500$ **\$1,000**

Per cohort, high: $8 \times \$500$ **\$4,000**

Places a year: 8×6 cohorts **48**

87 buyers fill all 48: $48 \times \$500$ **\$24,000**

One-to-one coaching

Per 8 weeks, low: $1 \times \$1,500$ **\$1,500**

Per 8 weeks, high: $20 \times \$1,500$ **\$30,000**

Places a year: 20×6 blocks **120**

Only 87 buyers: $87 \times \$1,500$ **\$130,500**

With 87 buyers, one-to-one could make you $87 \times \$1,500 = \$130,500$ a year, short of the 120 places a full year holds.

Minimum · ebook sales: $87 \times \$29$ **\$2,523**

Maximum · one-to-one year (larger than group \$24,000 and course \$17,400) **\$130,500**

Median · figures in order \$2,500, \$2,523, \$15,750, \$17,400; middle two: **\$9,136.50**
 $(\$2,523 + \$15,750) \div 2$

Mean · $(\$2,523 + \$17,400 + \$2,500 + \$15,750) \div 4 = \$38,173 \div 4$ **\$9,543.25**

Mid-range · $(\$2,523 + \$130,500) \div 2$ **\$66,511.50**

The median and mean count each coaching product at the middle of its 8-week range: group \$2,500 (midway between \$1,000 and \$4,000) and one-to-one \$15,750 (midway between \$1,500 and \$30,000). All are estimates.

SECTION 3

The product ladder

Four steps, in price order, each one a bigger version of the same promise: take what your followers already understand and get it out of their mouths in real conversation.

STEP 1 · EBOOK

\$29

Sound Like a Native: the phrasebook for A1–B1 speakers

What it is: your “7 phrases to sound like a native” series, your cognate patterns and your Colombia vs Venezuela expressions, gathered into one guide with a real example sentence and a “when you’d actually say this” note for each phrase.

Who it is for: the follower who saves your phrase carousels but freezes when it’s time to use one.

Revenue (estimate): $87 \times \$29 = \$2,523$. Autora writes it from your own posts; all you do is confirm you’re happy for it to go out.

STEP 2 · ONLINE COURSE

\$200

From Knowing to Speaking: A2–B1 Spanish in Context

What it is: a video course in the format your audience already knows: a short scene from your everyday life, then the structure inside it (the imperfect, saber + infinitive, ser vs estar, por vs para) and a speaking drill to use it out loud.

Who it is for: learners who have done the grammar and the apps and are tired of being stuck at beginner.

Revenue (estimate): $87 \times \$200 = \$17,400$.

The product ladder, continued

STEP 3 · GROUP COACHING

\$500

Stop Being a Beginner: an 8-week speaking circle

What it is: 2 to 8 learners at one level, meeting live with you every week for 8 weeks, each week built around one structure and one real situation, with everyone speaking in every session.

Who it is for: A1–A2 or A2–B1 learners who want accountability and a small group to practise with you directly.

Revenue (estimate): \$1,000 to \$4,000 per cohort; six cohorts fill 48 places, so $48 \times \$500 = \$24,000$ a year.

STEP 4 · ONE-TO-ONE

\$1,500

Speak with Ivanna: 8 weeks one-to-one

What it is: one hour a week with you for 8 weeks, planned around the learner's own goal: a trip, a partner's family, work.

Who it is for: the people who already answer your lesson offers, and who want a premium programme rather than single lessons.

Revenue (estimate): \$1,500 to \$30,000 per 8 weeks; with 87 buyers, $87 \times \$1,500 = \$130,500$ a year.

PRODUCT	PRICE	YOUR TIME	REVENUE (ESTIMATE)

SECTION 6

Launch plan

Three steps, each one built on content that is already working for you.

STEP 1 · WEEK 1**Test the demand with your strongest format**

Post part 4 of “7 phrases to sound like a native” (script on the next page), ending with an invitation to comment for the full guide. Your phrase carousels are your best-liked recent posts, so this is the fairest test. Count the comments over 7 days.

STEP 2 · WEEKS 2–4**Release the ebook to the people who asked**

Autora writes the phrasebook from your series. You reply to everyone who commented, then keep posting phrase and cognate carousels, each pointing to it. Tell your story again in a short reel: it drew your most comments, and it is why people trust a native teacher.

STEP 3 · WEEKS 5–8**Open the first group cohort and the one-to-one places**

Run a week of “Knowing the rule is one thing” posts on the mistakes you see at A1–A2, then open the first 8-week cohort and a small number of one-to-one places. Ebook buyers hear first. Filming for the course runs alongside.

SECTION 7

Your first post

A carousel in your own format, testing one thing: do your followers want your phrases gathered in one place? Ready to publish as written.

SLIDES

1. 7 phrases to sound like a native in Spanish, parte 4
2. ¡Qué pena! · How embarrassing! (in Colombia and Venezuela)
3. Estoy limpio/a · I'm broke (in Venezuela)
4. Estaba yo... · Telling a story like a native
5. Supongo que no · I guess not
6. Me tomó años · It took me years
7. Estoy pelado/a · I'm broke (in Colombia)
8. Saber + infinitivo · ¿Sabes manejar? Can you drive?
9. Want all of them in one place? Comment GUÍA

CAPTION

You understand these phrases... but do you actually USE them when you speak?

Knowing natural expressions is one thing. Remembering them in the middle of a real conversation is another.

I'm putting every phrase from this series into one short guide, with an example for each one and when a native would actually say it.

Comment GUÍA and I'll send it to you first.

And tell me: which one are you going to use this week?

How to read the result: every GUÍA comment is a person asking for the ebook. They are the first people the ebook goes to, and the first to hear about the group cohort.

NEXT STEPS

What to do next

1. Post the carousel on page 11 this week.
2. Send us your phrase posts and confirm you're happy for the ebook to go out.
3. Tell us which level you want for the first group cohort and how many one-to-one hours a week you want to give.

Reply to this DM and I'll walk you through the numbers and what to build first.

All figures are estimates in US dollars, based on public profile data and the Autora revenue model set out in this audit; they are not a forecast or a guarantee.

How this was made: I build automations, and I used AI for the analysis, which is why this took an evening rather than a fortnight.
