Speaking presence and business storytelling
for executives and entrepreneurs: stories
structured, not just shared.

ESTIMATED REVENUE RANGE

\$638 to **\$33,000**

Estimate. The bottom of the range is the ebook sales; the top is a year of one-to-one coaching, capped at your 22 estimated buyers.

MEDIAN

\$3,450 estimate

MEAN

\$5,822 estimate

MID-RANGE

\$16,819 estimate

Assumptions: 5% of followers are engaged and 5% of those buy; group coaching is 2 to 8 people per 8-week cohort; one-to-one is 1 to 20 hours a week; the maximum is a full year of six 8-week blocks, capped at the number of buyers.

Your part: you film the labs and run the coaching sessions. We host and run everything else, with nothing to pay upfront.

SECTION 01

What your numbers *say*

You help C-suite executives, entrepreneurs and organisations lead with storytelling that builds trust. The account is small and established; the strongest signal is in what you already run offline.

The teaching posts on authenticity and speaking fear draw the conversation. The running posts draw the likes. The Elevate recap and lab posts are where your method shows.

Three content pillars

01 · THE METHOD

Speaking presence and business storytelling: glossophobia, authenticity, structure. This is what the products are built on.

02 · THE ROOM

Elevate labs, the stage and the studio: the 22/09 recap, the TV appearance, the live lab in Lusaka.

03 · THE DISCIPLINE

Running and lifestyle, much of the feed. Your own line ties it back: "Discipline off the stage is what makes presence possible on it."

SECTION 01 · CONTINUED

The *opportunity*

The hidden transformation: you turn executives who hold back into speakers whose stories are structured, not just shared.

"We break them into pairs.... Very uncomfortable but it works.... Some hold back but as we review and listen to fellow speakers.... They start to see how and why it works.... Because the investment demands it...."

You, in a DM, 01/10

OBSERVED

- About 8,900 followers (public data).
- You run a live lab, **Elevate: Mastering the Art of Speaking with Impact & Business Storytelling**. Your 22/09 recap said the stories "were structured, not just shared".
- A masterclass funnel already exists: "Join the Masterclass!" in your bio.
- Two books: *Ace That Talk* on Amazon, and *Authentic Communication Is Love*.
- Much of the feed is personal running and lifestyle content.

INFERRED, NOT YET CONFIRMED

Leaders who can't attend a lab in person may want the method.

You haven't said so, so this is the question to test before anything is built. The first post in this audit is designed to test it.

VERDICT

The labs work because of the design: pairs, deliberate discomfort and peer review. That design can run online for leaders anywhere.

SECTION 02

Where the number *comes from*

Every figure here is an estimate built from one public number, your follower count, and one fixed model. Here it is step by step.

The four products

Online course	\$200	22 buyers	\$4,400
Group coaching 8 weeks	\$500	2 to 8 people per cohort; 22 buyers a year	\$1,000 to \$4,000 per 8 weeks \$11,000 a year
One-to-one coaching 8 weeks, 1 hour a week	\$1,500	1 to 20 hours a week; 22 buyers a year	\$1,500 to \$30,000 per 8 weeks \$33,000 a year

Ebook: $22 \times \$29 = \638 . Course: $22 \times \$200 = \$4,400$. All figures are estimates in US dollars.

The coaching ranges and *the averages*

GROUP COACHING · \$500

Per 8-week cohort: 2 to 8 people × \$500
= **\$1,000 to \$4,000.**

Per year: six cohorts hold up to 48 places (8 × 6), but you have 22 estimated buyers. With 22 buyers, the group programme could make you 22 × \$500 = **\$11,000 a year.**

ONE-TO-ONE · \$1,500

Per 8 weeks: 1 to 20 clients at a time × \$1,500 = **\$1,500 to \$30,000.**

Per year: six blocks at 20 hours a week hold up to 120 programmes (20 × 6), but you have 22 estimated buyers. With 22 buyers, one-to-one could make you 22 × \$1,500 = **\$33,000 a year.**

Minimum

\$638

The ebook sales: 22 × \$29

Maximum

\$33,000

The largest year figure: one-to-one, 22 × \$1,500 (beats group \$11,000 and course \$4,400)

Median

\$3,450

Figures in order \$638, \$2,500, \$4,400, \$15,750; middle two: (\$2,500 + \$4,400) ÷ 2

Mean

\$5,822

(\$638 + \$4,400 + \$2,500 + \$15,750) ÷ 4 = \$23,288 ÷ 4

Mid-range

\$16,819

(\$638 + \$33,000) ÷ 2 = \$33,638 ÷ 2

All estimates. For the median and mean, each coaching product is counted at the middle of its 8-week range: group \$2,500 (between \$1,000 and \$4,000) and one-to-one \$15,750 (between \$1,500 and \$30,000). The mid-range uses the year maximum.

SECTION 06

Launch *plan*

Three steps, in order. Nothing gets built until your audience has told you they want it.

01 Ask first

Post a story question asking leaders whether they'd join an online Elevate lab. Use the carousel on the next page as the feed version. Count the replies and comments.

02 Film the next live lab

Film your next Elevate lab with the course in mind: the teaching segments and a pair-rehearsal round. Your Lusaka lab on Saturday 3 October is the obvious candidate if a camera can be set up in time; otherwise the one after. Send Autora the footage.

03 Waitlist, then launch

Open a waitlist for everyone who said yes. Then launch with a clear date and a real close, so the first cohort fills on a deadline, not on a maybe.

KEEP IT HONEST

Don't overstate the COMESA partnership, and don't claim client results or demand that you haven't seen. The posts should rest on the method and on what happens in your labs.

SECTION 07

The first *post*

A four-slide carousel that tests one thing: do leaders want the Elevate lab online? Ready to publish.

SLIDE 1

Most executives don't need more slides. They need a structure for their story.

SLIDE 2

In my Elevate labs, stories get structured, not just shared.

SLIDE 3

I'm thinking of taking the lab online, so leaders can rehearse with me wherever they are.

SLIDE 4

Comment "ELEVATE" if you'd want it.

Caption

In Elevate, we break leaders into pairs. It's uncomfortable, but it works: as they review and listen to each other, they start to see how and why a structured story lands.

I'm thinking of taking the lab online, so leaders can rehearse with me wherever they are.

Would you join? Comment "ELEVATE" and I'll send you the details first.

Built from your own words: the 22/09 Elevate recap and your description of the pairs exercise. Run the same question as a story poll the same day.

NEXT STEPS

What to do *next*

01 Post the carousel

Publish the first post and the story question, and see who comments "ELEVATE".

02 Film the next lab

Capture the teaching and one pair-rehearsal round for the course.

03 Talk it through

We'll go through the numbers together and decide which product to build first.

Reply to this DM and I'll walk you through the numbers and what to build first.

All figures are estimates based on public profile data and this audit, in US dollars. They are not a forecast or a guarantee.

How this was made: I build automations, and I used AI for the analysis, which is why this took an evening rather than a fortnight.
