14,362 FOLLOWERS · BONSAI ARTIST, INSTRUCTOR & INTERNATIONAL DEMONSTRATOR

Classical and tropical bonsai styling, taught by a working demonstrator: turning hesitant growers into confident artists who make the big cut without fear.

ESTIMATE · PER COHORT

\$30,000 *estimate*

One premium apprenticeship: 20 spots at \$1,500. It assumes 20 of the roughly 718 people most engaged with your work (about 2.8% of them) take a place.

i What your numbers say

v Offer detail, product by product

ii Where the \$30,000 comes from

vi The six-phase launch

vii Your first post, ready to publish

I · WHAT YOUR NUMBERS SAY

An audience that wants the *hard decisions*, not the basics

Your niche is classical and tropical bonsai artistry, styling and master instruction. The people who follow you are not looking for watering tips. They come to watch a master read raw material and commit to a design.

14,362 FOLLOWERS	782 POSTS PUBLISHED	116 AVERAGE LIKES PER POST	0.84% ENGAGEMENT RATE
---------------------	------------------------	-------------------------------	--------------------------

Public data from your profile, October 2026. Post figures in the three pillars below are from the audit review of your content.

1

Master-grade restyling and material work HIGH

How a master assesses raw, unrefined material and makes bold structural decisions. This is the content your audience studies.

Premna microphylla styling: 138 likes, 9 comments. Casuarina tray redesign: 177 likes, 8 comments.

2

Botanical garden and exhibition curation HIGH

Your strongest reach. Institutional-grade trees at Kishkinda Moolika place your standard of work at an international level.

Kishkinda Moolika Part 2: 197 likes, 4,301 views. Part 1: 184 likes, 10 comments.

3

Personal collections and community visits MEDIUM

Trust builders. They deepen cultural connection and peer respect rather than teach technique directly.

150 likes, 13 comments: the highest comment-to-view ratio in the set.

II · WHERE THE NUMBER COMES FROM

Four lines of arithmetic, *nothing hidden*

The audit uses conservative market metrics and a deliberately small, premium offer: a restricted group with direct access to you. Here is the working, line by line.

<i>a</i>	Follower base Public data, October 2026	14,362
<i>b</i>	Engaged audience: 5% of followers Market premise: the share who actively follow your work closely. 14,362 × 5% = 718	718
<i>c</i>	Programme spots, deliberately limited 20 of 718 is about 2.8% of the engaged audience	20
<i>d</i>	Price per spot An eight-week premium apprenticeship with direct access to you	\$1,500
=	Revenue potential per cohort (estimate) 20 spots × \$1,500	\$30,000

The assumption that carries the weight: 20 people out of roughly 718 engaged followers apply and pay. Everything else is fixed by you: the size of the group and the price. If fewer apply, the cohort is smaller; the price and the promise stay the same.

CEILING · ESTIMATE

\$60,000 a year

If the apprenticeship fills twice in a year (two cohorts of 20 at \$1,500). Only worth planning once the first cohort has filled and delivered.

WHY PRICES ARE IN US DOLLARS

\$1,500

The audit prices in dollars, matching your international demonstrator work and an audience beyond India.

III · THE PRODUCT LADDER

Three paths, *one big bet*

Each product crosses what your content demonstrates with what your audience shows it wants. The apprenticeship is the audit's priced offer; the other two prices are our estimates, with the assumption beside each.

PRODUCT	FORMAT	PRICE	BUYERS	REVENUE (ESTIMATE)
Master Bonsai Apprenticeship The big bet	8-week virtual mentorship, 20 places	\$1,500	20	\$30,000 per cohort \$60,000 if run twice a year
Tropical & Subtropical Styling Blueprint Masterclass	Recorded deep-dive	\$197	7-21	\$1,379-\$4,137
Private Collection Diagnostic & Redesign Roadmap 1-on-1 advisory	Photo and video audit, 3-year plan	\$1,800	3-6	\$5,400-\$10,800

ASSUMPTION	ASSUMPTION · ESTIMATE	ASSUMPTION · ESTIMATE
Apprenticeship	Blueprint	Diagnostic
20 spots × \$1,500, from the audit. About 2.8% of 718 engaged followers.	1% to 3% of 718 engaged followers buy a \$197 masterclass: 7 to 21 buyers.	3 to 6 serious collectors a year at \$1,800, capped by your own time on each collection.

Start with the apprenticeship. The Blueprint can be built from recordings of its live sessions, and the Diagnostic suits members who want to go deeper on their own trees once the cohort ends.

IV · OFFER DETAIL

The Master Bonsai Apprenticeship

\$1,500
20 places · 8 weeks

"Turn your overgrown, raw material into a refined bonsai, without killing it or destroying its future line."

WHAT IS INSIDE

- An exclusive eight-week virtual mentorship, limited to 20 serious growers.
- Live diagnostic sessions where you read members' trees in front of the group.
- A personalised styling blueprint for each member's tree.
- Direct video reviews of each member's private material.

WHO IT IS FOR

Dedicated practitioners and collectors who have hit a technical plateau, and who fear making critical cuts or bending thick branches without expert guidance.

WHY IT WILL SELL

Serious enthusiasts struggle to apply generic internet advice to their own valuable trees. Your Premna and Casuarina posts show the demand to watch you make exactly these decisions.

First step to build it: post the test carousel on page 9. Every person who replies "I WANT" is a candidate for one of the 20 places. Ask each one, in DMs, to send a photo of the tree they are stuck on; those photos become your first diagnostic session plan.

IV · OFFER DETAIL, CONTINUED

Tropical & Subtropical Styling Blueprint

\$197

estimate · masterclass

WHAT IS INSIDE

- The structural rules for Premna, Casuarina and Ficus.
- Deadwood carving.
- Trunk fattening.
- Aggressive ramification.

THE PROMISE

The botanical and mechanical execution tropical species need, filling the gap left by temperate-climate bonsai literature.

FIRST STEP

Record the live sessions of your first apprenticeship cohort and cut the species sections into modules.

Private Collection Diagnostic & Redesign Roadmap

\$1,800

estimate · 1-on-1

WHAT IS INSIDE

- A private review of a collector's top 3 to 5 specimens.
- High-resolution photo and video audits of each tree.
- A mapped three-year transformation roadmap.

WHO IT IS FOR

High-net-worth collectors who want direct critique on their own trees without joining a group.

FIRST STEP

Offer it privately to collectors who reply to the carousel but ask for one-to-one help instead of a cohort.

V · LAUNCH PLAN

Six phases, *from first poll to closed doors*

Your workshop calendar already gathers people in one place: Mysore, Vadodara, Ahmedabad on 18 October. The launch turns that attention into 20 applications.

I

Build up

Engage your community and tease that something big is coming. Interactive stories touching on their pain points and showing your results. High interaction is the goal.

post A poll: "What stops you making the first major cut?" A Q&A box on bending heavy branches. Before-and-after stories from the Casuarina redesign.

2

Invitation

Announce it is on the way and invite your audience into a private WhatsApp or Telegram group where all details will be revealed. Tease the time-limited exclusive bonus.

post The test carousel on page 9, then the group link to everyone who replied "I WANT" and to workshop attendees.

3

Anticipation

Build curiosity inside the group. Tease what is coming, share the results people can achieve, and make the timeline crystal clear so everyone is ready to act the moment doors open.

post Inside the group: raw material you are about to style, and the dates the apprenticeship opens and closes.

V · LAUNCH PLAN, CONTINUED

Reveal, convert, *close for real*

4

Reveal

Deliver the full breakdown: what is included, the exclusive bonus, the price and the open and close dates. Leave no doubt about what is on offer.

post In the group: the eight-week outline, the live diagnostic sessions, the personal styling blueprint, \$1,500, 20 places.

5

Conversion

Send the application link for one of the 20 limited spots, run a poll to see who is in or has questions, and follow up one-to-one in DMs with everyone who raises a hand. That is where most conversions happen.

post The application link, then a poll: "I'm in / I have a question / Not this time".

6

Urgency

Countdown messages at 24 hours, 12 hours, 6 hours, 2 hours and closed, so people see exactly what they lose by staying out. The close must be real: reopening destroys credibility for the next launch.

post Five short countdown messages in the group and on stories, then "closed".

Why the close matters for you: the \$60,000 ceiling depends on a second cohort. A firm first close is what makes the second one believable.

VI · THE FIRST POST

Test the demand *before you build anything*

Post this simple carousel, black background and white text, before building anything. It speaks to the fear the audit names: the first major cut on a tree someone has nurtured for years.

SLIDE 1 · HOOK

You've spent three years
watering that raw material.

And you're still terrified to
make the first major cut.

SLIDE 2 · AGITATION

Generic bonsai tutorials show
finished trees.

They don't show you how to
read the hidden trunk lines,
bend heavy branches safely,
or handle tropical species
that don't follow textbook
rules.

So your tree stays overgrown.
And you stay stuck.

SLIDE 3 · CALL TO ACTION

What if you had an
international demonstrator
personally review your tree
and design its complete
styling blueprint with you?

**Reply 'I WANT' if this
resonates with you.**

SUGGESTED CAPTION, IN YOUR VOICE

Every week I see raw material like the Premna and Casuarina I worked on this month with friends in Mysore. Most of it waits years for a first cut. If you have a tree like that, reply 'I WANT' and tell me the species. #bonsai #bonsaiindia #bonsaitree #bonsaiartist #bonsailovers

What a good result looks like

Replies naming specific species and trees. These people have material and a problem, and they are your first applicants.

What to do with every reply

DM back, ask for a photo of the tree, and invite them to the private group in phase 2.

VII · WHAT TO DO NEXT

The trees are already in your followers' gardens. *They are waiting for your eye.*

- 1 Post the test carousel this week and count the "I WANT" replies and DMs.
- 2 Reply to every one, ask for a photo of the tree, and invite them into a private group.
- 3 Use the six-phase launch to open 20 places in the Master Bonsai Apprenticeship at \$1,500.

Reply to this DM and I'll walk you through the numbers and what to build first.

Prepared by Euan Grant · Autora AI Automation · October 2026

All figures are estimates based on your public profile data and the audit; they are not guarantees of revenue.

How this was made: I build automations, and I used AI for the analysis, which is why this took an evening rather than a fortnight.
