

TYLER SALE

T77 BMX

@t77bmx · 116,848 followers (public data)

The UK BMX workshop that films every repair, restoration and custom build, and could teach riders who can't get their bike to the bench to do the job themselves.

REVENUE RANGE ACROSS FOUR PRODUCTS · ESTIMATE

\$1,000 to \$58,400

\$12,109

MEDIAN · ESTIMATE

\$21,279.50

MEAN · ESTIMATE

\$29,700

MID-RANGE · ESTIMATE

Assumptions: 5% of followers are engaged and 5% of those buy the ebook or course; group coaching is 2 to 8 people per 8-week cohort; one-to-one is 1 to 20 hours a week. Averages count the coaching products at the middle of their ranges.

YOU SHOOT THE CONTENT AND SEND US THE FOOTAGE. WE HOST AND RUN EVERYTHING ELSE.

Inside: your numbers · where the range comes from · the product ladder · who does what · offer detail · launch plan · your first post

01 · SNAPSHOT

WHAT YOUR NUMBERS SAY

You run a working BMX workshop and film it: repairs, restorations and custom builds, chosen by what the bike actually needs and what will make the biggest difference to the rider. People already pay you to do that work, but only when their bike can physically reach your bench.

ENGAGEMENT

Public data from your profile, 522 posts. The figures below come from your 12 most recent videos.

THE CONTENT THAT WORKS

RECENT VIDEO (PUBLIC DATA)	VIEWS	LIKES
Custom Profile Racing rear wheel rebuild, Amsterdam	286,024	8,584
Customising the rare Grape Soda at the skatepark	190,273	2,804
Sunday "Burn Slow" stem upgrade inside the skatepark	70,001	1,059
The most satisfying BMX headset repair	38,280	1,555
Drone trick shot / tool review / sponsored post	1,595 to 3,905	109 to 162

The pattern is clear: when a real bike gets taken apart and rebuilt on camera, people watch. The step-by-step repairs are the method, and you already give it away for free.

YOUR THREE CONTENT PILLARS

Restorations and custom builds

Rare frames and parts rebuilt on location: Amsterdam, the skatepark, the secret spot.

Repair know-how

Headsets, wheels, the grip-fitting hack, the Allen key set that finally fits.

The workshop and shop

Paid repairs, @6miltools and @gt85spray partnerships, and @shifta.bike.

02 · THE WORKING

WHERE THE NUMBER COMES FROM

Every figure here is an estimate, built from your public follower count and one fixed set of assumptions, so you can check each step yourself.

F · Followers (public data)**116,848****E · Engaged audience** = 5% of F = 5,842.4, rounded down**5,842****B · Buyers** = 5% of E = 292.1, rounded down**292**

PRODUCT	PRICE	WHAT THE FIGURE RESTS ON	REVENUE (ESTIMATE)
Ebook	\$29	292 buyers × \$29	\$8,468
Online course	\$200	292 buyers × \$200	\$58,400
Group coaching (8 weeks)	\$500	2 to 8 people per cohort × \$500	\$1,000 to \$4,000
One-to-one coaching (8 weeks)	\$1,500	1 to 20 hours a week (clients) × \$1,500	\$1,500 to \$30,000

THE TWO COACHING RANGES

Group coaching

Low: 2 people × \$500 = \$1,000. High: 8 people × \$500 = \$4,000. That is per 8-week cohort. You can run it several times a year, and each cohort earns \$1,000 to \$4,000 again.

One-to-one coaching

One hour a week per client over 8 weeks. Low: 1 client × \$1,500 = \$1,500. High: 20 hours a week, so 20 clients × \$1,500 = \$30,000, per 8 weeks.

02 · THE WORKING, CONTINUED

RANGE AND AVERAGES

The range runs from the lowest figure across the four products (counting the low end of each coaching range) to the highest (counting the high end). For the averages, each coaching product is counted at the middle of its range: group coaching $(1,000 + 4,000) \div 2 = \$2,500$, and one-to-one $(1,500 + 30,000) \div 2 = \$15,750$.

Minimum · group coaching, 2 people

\$1,000

Maximum · online course, $292 \times \$200$

\$58,400

Four figures in order: \$2,500 · \$8,468 · \$15,750 · \$58,400

Median = $(8,468 + 15,750) \div 2 = 24,218 \div 2$

\$12,109

Mean = $(2,500 + 8,468 + 15,750 + 58,400) \div 4 = 85,118 \div 4$

\$21,279.50

Mid-range = $(1,000 + 58,400) \div 2 = 59,400 \div 2$

\$29,700

All five figures are estimates. Shared scale \$0 to \$60,000; coaching shown as low-to-high ranges.

03 · WHAT TO SELL

THE PRODUCT LADDER

Your free videos already show the method. The gap is a structured, paid version for riders who want to do the job themselves, on their own bike. Each step up sits next to the workshop rather than competing with it.

1 · THE T77 WORKSHOP MANUAL

EBOOK · \$29

What it is: your repair know-how in one written guide: diagnosing what a bike actually needs, what to replace and why, the tools, and the order of work, from headsets and wheels to grips. Autora writes it from your own videos and captions; all you do is confirm you're happy for it to go out.

Who it is for: riders who watch the repairs and want the steps on paper next to the bike.

Revenue (estimate): 292 buyers × \$29 = **\$8,468**

2 · THE WORKSHOP-AT-HOME SERIES

ONLINE COURSE · \$200

What it is: one full restoration, from stripped frame to finished bike, filmed the way you already film, with each step broken out: diagnosis, what to replace and why, tools, and the order of work. It keeps your rule of choosing work that genuinely matters to the bike, not a repair forced for content.

Tool list inside: each lesson lists the exact tools used, linked through the tool partnerships you already have, so they become part of the product rather than a separate link in bio.

Who it is for: riders who want to do the whole job themselves but can't bring their bike to your workshop.

Revenue (estimate): 292 buyers × \$200 = **\$58,400**, before any affiliate tool income.

03 · WHAT TO SELL, CONTINUED

THE PRODUCT LADDER, CONTINUED

3 · THE BUILD-ALONG CREW

GROUP COACHING · \$500

What it is: an 8-week group programme where 2 to 8 riders each work through a repair or restoration on their own bike, with a live weekly session where you diagnose problems and talk them through the next stage.

Who it is for: riders who want your eye on their bike while they do the work.

Revenue (estimate): 2 to 8 people × \$500 = **\$1,000 to \$4,000** per cohort. You can run it several times a year; each cohort earns this again.

4 · YOUR BIKE, ONE-TO-ONE

ONE-TO-ONE · \$1,500

What it is: 8 weeks, one hour a week on video with you, planning and guiding one rider's restoration or custom build from diagnosis to the finished bike.

Who it is for: riders with a rare or special bike who would send it to your workshop if they could.

Revenue (estimate): 1 to 20 hours a week × \$1,500 = **\$1,500 to \$30,000** per 8 weeks.

PRODUCT	PRICE	YOUR TIME	REVENUE (ESTIMATE)
Ebook	\$29	Confirm it can go out	\$8,468
Online course	\$200	Film one restoration	\$58,400
Group coaching	\$500	1 live session a week	\$1,000 to \$4,000
One-to-one	\$1,500	1 hour a week per client	\$1,500 to \$30,000

Already running, and staying as it is: your paid workshop repairs, restorations and custom builds. They carry no figure in this audit; the ladder is for riders who can't reach the bench.

04 · THE SPLIT

WHO DOES WHAT

Autora hosts and runs everything: the format, the build, the platform and hosting, the checkout and payments, delivery, the marketing and the backend. There is nothing to pay upfront; Autora is paid from a share of what it makes.

YOUR PART	WHAT AUTORA DOES
EBOOK Confirm you're happy for it to go out. Next to no work.	EBOOK Writes it from your videos and captions, designs it, hosts it, sells it and delivers it.
ONLINE COURSE Shoot the restoration the way you already film, and send us the footage.	ONLINE COURSE Turns the footage into the course, builds the tool lists, hosts it, sells it and delivers it.
GROUP COACHING Run the weekly live sessions with the crew.	GROUP COACHING The sales page, booking, payments, onboarding and marketing for every cohort.
ONE-TO-ONE Run the one-hour weekly calls.	ONE-TO-ONE The sales page, booking, payments, onboarding and marketing.

In short: you keep doing what you already do, fixing bikes and filming it. You never have to build, host, market or sell anything yourself.

05 · THE OFFERS

OFFER DETAIL

THE T77 WORKSHOP MANUAL

EBOOK · \$29 · ESTIMATE \$8,468

INSIDE	How to diagnose what a bike actually needs; headset, wheel, stem and grip jobs written up step by step; the tools for each, and the order of work.
THE PROMISE	Work out what your bike needs and fix it in the right order, the way it's done on the workshop bench.
YOUR PART	Autora writes it from your content. You only confirm you're happy for it to go out.
FIRST STEP	Autora pulls your repair videos and captions into a draft for you to read.

THE WORKSHOP-AT-HOME SERIES

ONLINE COURSE · \$200 · ESTIMATE \$58,400

INSIDE	One full restoration from stripped frame to finished bike: diagnosis, what to replace and why, tools, and the order of work, each its own lesson, with the exact tools linked through your existing partnerships.
THE PROMISE	Do the whole job yourself, on your own bike, without needing to get it to a workshop.
YOUR PART	Shoot the content and send Autora the footage. Autora turns it into the course, hosts it, sells it and delivers it.
FIRST STEP	Pick one restoration you're already planning to film, and film it with the series in mind.

05 · THE OFFERS, CONTINUED

OFFER DETAIL, CONTINUED

THE BUILD-ALONG CREW

GROUP COACHING · \$500 · ESTIMATE \$1,000 TO \$4,000 PER COHORT

INSIDE	8 weeks, one live group session a week. 2 to 8 riders each work on their own bike, show where they're stuck, and get your diagnosis and next step.
THE PROMISE	Finish your own repair or restoration in 8 weeks with your eye on it.
YOUR PART	Run the sessions. Autora handles the sales page, booking, payments, onboarding and marketing.
FIRST STEP	Open the first cohort to the riders on the course waitlist.

YOUR BIKE, ONE-TO-ONE

ONE-TO-ONE COACHING · \$1,500 · ESTIMATE \$1,500 TO \$30,000 PER 8 WEEKS

INSIDE	8 weeks, one hour a week on video, working through one rider's restoration or custom build: what to keep, what to replace, and in what order.
THE PROMISE	Workshop-grade guidance on your bike, wherever you live.
YOUR PART	Run the calls. Autora handles the sales page, booking, payments, onboarding and marketing.
FIRST STEP	Decide how many hours a week you can give it next to the workshop, from 1 to 20.

06 · ORDER OF WORK

LAUNCH PLAN

Test first, build second. The audit infers that some of your viewers can't use the workshop because of distance or your capacity, but you haven't said how many. So the first job is to find out.

1

ASK FIRST

Post the test carousel on the next page, plus a story poll or question box: would they rather send their bike in, or learn to do the job themselves? This tests demand before anything is built.

2

FILM ONE RESTORATION FOR THE SERIES

Pick a restoration you're already planning to film, and film it with the series in mind: each stage complete, each tool shown. Send Autora the footage.

3

WAITLIST, LAUNCH DATE, REAL CLOSE

Autora sets up the waitlist for everyone who commented or voted, and opens the series to them first, with a clear launch date and a real close.

4

LET THE NUMBERS DECIDE

Use the replies and waitlist numbers to decide whether a second series, or the first coaching cohort, is worth running.

07 · TEST BEFORE YOU BUILD

THE FIRST POST

Post this as a carousel, or as a short reel caption over your next workshop clip, before anything is built.

Slide 1 Can't get your BMX to a workshop?

Slide 2 Every week I strip, fix and rebuild bikes like this one. Most of you watch from too far away to send yours in.

Slide 3 I'm thinking of filming one full restoration, every step, so you can do it on your own bike.

Slide 4 Comment **"BUILD"** if you'd want it.

Story poll, same week

"Your bike, broken. Would you rather..."

SEND IT TO T77

LEARN TO FIX IT MYSELF

What to watch: the number of "BUILD" comments is the demand test, alongside the poll split. Those riders become the waitlist.

08 · NEXT

WHAT TO DO NEXT

- ◆ Post the "BUILD" carousel and the story poll this week.
- ◆ Choose the restoration you're already planning to film, and film it with the series in mind.
- ◆ Say yes to the ebook draft, and Autora gets the waitlist ready.

Reply to this DM and I'll walk you through the numbers and what to build first.

TS

Prepared by Euan Grant · Autora AI Automation · October 2026

All figures are estimates based on public profile data and the audit, using the assumptions shown on page 3; they are not promises of results.

How it was made: I build automations, and used AI for the analysis, which is why this took an evening rather than a fortnight.
