The bottom of the range is the ebook sales; the top is a year of one-to-one coaching, capped at your 44 estimated buyers. Assumptions: 5% of followers are engaged and 5% of those buy; group coaching is 2 to 8 people per 8-week cohort; one-to-one is 1 to 20 hours a week; the maximum is a full year of six 8-week blocks. Median and mean count each coaching product at the middle of its 8-week range.

WHAT YOUR NUMBERS SAY

Connection *before* correction

You coach parents and teens towards connection, using CBT and NLP training and a career-counselling certification. You already take one-to-one bookings through Topmate, so paid work with you is not new to your audience.

THE IDEA AT THE CENTRE

“Take one breath, notice your own emotion, and ask yourself: ‘Does my child need correction right now, or connection?’”

In your own words, by DM, 30 September.

WHAT THE CONTENT SHOWS

Engagement on recent posts is modest (public data), so the numbers in this audit lean on your follower count, not on reach. Among your latest posts, the most viewed videos are the dua for emotionally safe parenting (285 views), the 2024 “believe in yourself” reflection (283) and the post on teen distraction and screens (283). Your August post on frustration being the moment to connect, not lecture, is the clearest statement of what you teach.

THREE CONTENT PILLARS

The pause

Connect before you correct: frustration, ignoring, and what sits behind the behaviour.

The teen years

Distraction, screens, focus and self-discipline for teenagers who struggle to stay present.

The parent’s own mind

CBT-led self-awareness and faith: “empty boats”, reacting from memory, and duas for healing.

WHERE THE NUMBER COMES FROM

From followers to *buyers*

Every figure here is an estimate built from one public number, your follower count, and two fixed assumptions. People are rounded down to whole numbers.

The four products, estimated

PRODUCT	PRICE	RESTS ON	REVENUE (ESTIMATE)
Ebook	\$29	44 buyers	44 × \$29 = \$1,276
Online course	\$200	44 buyers	44 × \$200 = \$8,800
Group coaching	\$500	2 to 8 people per 8-week cohort	\$1,000 to \$4,000 per cohort \$22,000 a year
One-to-one coaching	\$1,500	1 to 20 hours a week	\$1,500 to \$30,000 per 8 weeks \$66,000 a year

The two coaching ranges

GROUP COACHING

Per 8-week cohort: 2 to 8 people × \$500 = **\$1,000 to \$4,000**. Six cohorts a year hold up to 48 places (8 × 6), but you have 44 estimated buyers, so with 44 buyers the group programme could make you 44 × \$500 = **\$22,000 a year**.

ONE-TO-ONE COACHING

Per 8 weeks: 1 to 20 clients at a time × \$1,500 = **\$1,500 to \$30,000**. Six blocks a year at 20 hours a week hold 120 programmes (20 × 6), but with 44 buyers, one-to-one could make you 44 × \$1,500 = **\$66,000 a year**.

WHERE THE NUMBER COMES FROM · CONTINUED

The range and the *averages*

Minimum **\$1,276**

Always the ebook sales: $44 \times \$29$

Maximum **\$66,000**

One-to-one year figure, $44 \times \$1,500$ (larger than the group's \$22,000 and the course's \$8,800)

Median **\$5,650**

Four figures in order: \$1,276, \$2,500, \$8,800, \$15,750. Mean of the middle two: $(\$2,500 + \$8,800) \div 2$

Mean **\$7,081.50**

$(\$1,276 + \$8,800 + \$2,500 + \$15,750) \div 4 = \$28,326 \div 4$

Mid-range **\$33,638**

$(\text{Minimum} + \text{maximum}) \div 2 = (\$1,276 + \$66,000) \div 2$

For the median and mean, the coaching figures are counted at the middle of their 8-week ranges: group coaching $(\$1,000 + \$4,000) \div 2 = \$2,500$, one-to-one $(\$1,500 + \$30,000) \div 2 = \$15,750$. All figures are estimates.

The same numbers, on one scale

Dark bars are one 8-week cohort or block; the lighter part runs on to a full year, capped at your 44 estimated buyers. Estimates only.

LAUNCH PLAN

Ask first, *then* build

What isn't known yet is whether parents ask for help in the moment, between sessions. You haven't said whether they do, so that is the first thing to test.

1 Ask first

Post a story question asking parents when they most need the pause: mornings, homework or bedtime. Alongside it, run the test post on the next page.

2 Film the course around the answers

Whichever moments parents pick become the first lessons. You film them and send the footage; we build, host and sell the course.

3 Waitlist, then a real launch

Open a waitlist, then launch with a clear date and a real close. The ebook and coaching sit either side of the course on the same sales page.

KEEP IT HONEST

Don't claim demand or client numbers you haven't seen, and don't make clinical claims. Speak as a coach, as you already do.

THE FIRST POST

A four-slide *test*

Built on your own one-breath question. It asks whether parents want a course on the pause, before anything is filmed.

- 1 Before you correct, one question.
- 2 “Does my child need correction right now, or connection?”
- 3 I’m thinking of a short course that walks you through that pause, for the moments when it’s hardest.
- 4 Comment “PAUSE” if you’d want it.

CAPTION IDEA

Take one breath. Notice your own emotion. Then ask the question on slide 2. Once your child feels heard and calm, correction becomes much easier.

WHAT TO WATCH

The “PAUSE” comments and the story answers. Together they tell us which moments the first lessons should cover.

WHAT TO DO NEXT

Start with one breath and one question.

Post the story question and the four-slide test. The answers tell us what to film first, and we take it from there.

1 Reply to the DM

Reply to this DM and I'll walk you through the numbers and what to build first.

2 Post the test

The story question and the "PAUSE" post, in your own voice.

3 Confirm the ebook draft

We write it from your posts; you read it and say yes.
